REDCap is a secure web platform for building and managing online databases and surveys. REDCap's streamlined process for rapidly creating and designing projects offers a vast array of tools that can be tailored to virtually any data collection strategy.

REDCap provides automated export procedures for seamless data downloads to Excel and common statistical packages (SPSS, SAS, Stata, R), as well as a built-in project calendar, a scheduling module, ad hoc reporting tools, and advanced features, such as branching logic, file uploading, and calculated fields.

Learn more about REDCap by watching a [brief summary video \(4 min\)](#). If you would like to view other quick video tutorials of REDCap in action and an overview of its features, please see the [Training Resources](#) page.

NOTICE: If you are collecting data for the purposes of human subjects research, review

Build online surveys and databases quickly and securely in your browser -

Create and design your project using a secure login from any device. No extra software required. Access from anywhere, at any time.

Fast and flexible - Go from project creation to starting data collection in less than one day. Customizations and changes are possible any time, even after data collection has begun.

Advanced instrument design features - Auto-validation, calculated fields, file uploading, branching/skip logic, and survey stop actions.

Diverse and flexible survey distribution options - Use a list of email addresses or phone numbers for your survey respondents and automatically

Two Factor Authentication (2FA) is now active on this system!

Record ID1

Specialty co-lead selection page

Here you can select co-leads for each speciality within your hospital. Co-leads are team members who will help set up mini-teams within each speciality. They should be colleagues who will be able to recruit team members, ensure that consecutive data is collected and chase missing data.

You may select multiple co-leads per speciality. Simply select co-leads and select "complete" from the form complete field.

If you want to change co-leads afterwards, please
